

Consistency on the track

BRAND-NEW – The **Sprayer**, – our innovative solution

Simple handling – effective results

MADE IN GERMANY

HIGH QUALITY

INNOVATIVE — ECONOMICAL — COST SAVING

Road safety

Road markings are important for a safe traffic. For permanent markings in high quality a professional Sprayer for glue is necessary. The glue has to be weatherproof and also robust in general to keep the road markings on the ground.

Effectivity

Use our innovative Sprayer – it is easy to handle and to transport. This small but effective machine is very light and simple to operate. The container with glue is replaced very quickly. Also the flexible tube is changed from one side to the other within seconds. This makes the Sprayer in traffic safer because of avoiding working against the driving direction.

Flexibility

Even the width of spraying is adjustable. Thus a consistent spraying is possible for all kinds of marking tape. With special features the glue is not spread too wide so that cleaning is easy afterwards.

Innovative technique

Our new Sprayer is the innovative solution for good road marking works. The machine is effective and very easy to handle.
